

INDIAN INSTITUTE OF SCIENCE  
INSTITUTE COLLOQUIA  
2022-2023

The Institute Colloquium Series has become a forum in which the faculty members, staff members, and students get an excellent opportunity to learn about the exciting research and innovation that is being carried out in different groups in the Institute. Six Colloquia are arranged per year. Speakers in this Series provide a broad overview of research in a given area while highlighting their spotlight contributions to this field.

In the academic year 2022-23, these Colloquia will be delivered by the following faculty members.

**BIOLOGICAL SCIENCES** (scheduled on 10th November 2022)  
Professor Nagasuma Chandra, Department of Biochemistry (BC)

**CHEMICAL SCIENCES** (scheduled on 13th October 2022)  
Professor P. K. Das, Department of Inorganic and Physical Chemistry (IPC)

**ELECTRICAL, ELECTRONICS AND COMPUTER SCIENCES (EECS)**  
(Scheduled on 8th December 2022)  
Professor K. J. Vinoy, Department of Electrical Communication Engineering (ECE)

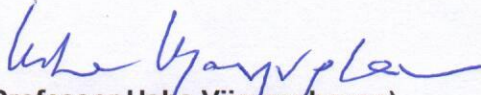

**INTERDISCIPLINARY SCIENCES** (scheduled on 19th January 2023)  
Professor Dasappa Srinivasaiah, Interdisciplinary Centre of Energy Research (ICER)

**MECHANICAL SCIENCES** (scheduled on 16th February 2023)  
Professor Rajeev Ranjan, Department of Materials Engineering (MTE)

**PHYSICAL & MATHEMATICAL SCIENCES** (scheduled on 27th March 2023)  
Professor Vijay Shenoy, Department of Physics (Physics)

These Colloquia are traditionally held in the Faculty Hall, Main Building. The Director presides over the colloquia. An individual notice will be issued for each Colloquium. We request your enthusiastic participation.

To facilitate discussions after these Colloquia, Coffee and tea will be served in the Reception Hall

  
(Professor Usha Vijayraghavan)  
Convener, Deans of Division
