

WALK THE TALK

Mr. Praneet Singh

**TOPIC: EMERGENT CAREERS IN THE
AI DOMAINTED WORLD**

Date: 11-10-2021

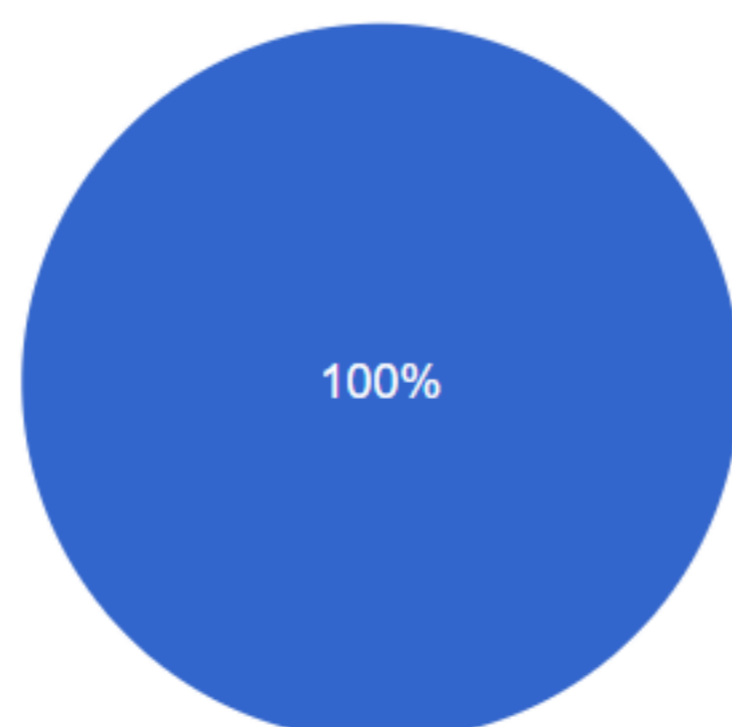

EMERGENT CAREERS IN AN AI DOMAINATED WORLD

Students were made to understand about artificial intelligence (AI) the potential to deliver some of the century's most significant and revolutionary advancements. Self-driving cars, robotic assistants, and automated disease detection are all examples of the AI revolution that is reshaping our lives and work. There are endless chances for individuals who wish to work on the cutting edge of AI research and development, with demand for skilled professionals more than doubling in the last few years.

Students actively participated and asked questions related to their interests. Importance of soft skills was conveyed through examples and backed up with the data shared by World Economic Forum.

EMERGENT CAREERS IN AN AI DOMAINATED WORLD

MESSAGE FOR STUDENTS:

Some of the world's best opportunities / jobs never go online. They are never listed.

So, ensure they find you. Ensure you prepare for them. Ensure your personal brand is contagious.

SHARE SOMETHING THAT HAS ALWAYS WORKED FOR YOU:

Today, you are the oldest you have ever been.

So, have faith in yourself as you take up a challenge.

Today you are also the youngest you will ever be.

So, don't be afraid to fail.
